

Community Manager

Valist is bringing the world's software from Web2 to Web3.

We're hiring our community manager to help us expand our outreach, community, and brand awareness. In this role, you will have a strong influence on our growth strategies, forge and develop great relationships with our community members and key partners, and create high quality content. You will be working closely with technical co-founders and engineers.

Some more on Valist and the vision:

— [Building Web3: Valist](#)

— [A Web3 Approach to Distributing Signed Software](#)

Why work with us?

- We are a team of hackers and builders at heart. We believe in the benefits that the next generation of web3 technologies will bring for humanity. Let's work together to make hackers lives that much harder, and developers lives that much easier -- and we'll be on the ground floor with you.
- We're big fans of non-speculative use-cases around crypto and p2p systems. If you're someone who has stayed for the tech, you're one of us. If these technologies can secure multi-billion dollar market caps, they can certainly work to improve the security posture of the internet at large. Our mission is to accelerate the adoption of web3 for everyone.
- We just closed our first investment round, with backing from ConsenSys, Protocol Labs, and a group of world-class venture funds and angels.

Who you are:

- A web3 advocate
- A memelord / cryptotwitter connoisseur
- Passionate about community development and growth
- Highly skilled technical writer that can convey complex ideas in simple language
- Someone that loves to hang out at crypto events for fun

What you'll be working on:

- Community outreach and growth
- Content creation (blogs/articles, social media, presentations, etc.)
- Expanding partnerships and key relationships

- Helping establish our brand and vibe
- Create growth strategies and test assumptions based on data
- Articulating the mission and technical concepts to both developer and non-dev audiences
- Networking at conferences and events (travel 3-6 times a year)
- Occasional grant/proposal writing/editing

Perks + benefits:

- Remote-first forever (we're a team that was remote for years prior to COVID-19, we get it's not a trend)
- Home workstation and equipment budget
- Meaningful equity in a fast growing company
- Comprehensive benefits (medical, dental, vision, life, disability, etc.)
- Learning and growth budget (conferences, events, courses, books, etc)
- Flexible PTO, must take at least 2 Weeks
- Work in a passionate and ambitious team dedicated to making a positive impact

Our commitment to diversity:

Valist is proud to be an equal opportunity employer and dedicated to fostering diversity, inclusion, and belonging in its teams and workforce. We do not discriminate or make hiring decisions on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.

How to Apply

Please send us the following to hello@valist.io

- Quick intro
- Relevant background
- Twitter account / other public social media accounts
- What brought you into the world of web3
